

Statement in Support of PEN America, et al's Lawsuit Against Escambia County, FL

"Macmillan staunchly supports our author, George M. Johnson, PEN America, and all the plaintiffs in their lawsuit against Escambia County School District and Escambia County School Board, FL. As future leaders of our democracy, children need and deserve access to the full breadth of who we are as Americans. The censorship of books is a direct attack on the founding principles of our country and our constitutional rights as citizens."

- Jonathan Yaged, CEO, Macmillan Publishers
